

This term our topic is... The Big Blue! All of our amazing key texts are linked with the seaside or sea creatures so we will be delving deep into our imaginations to become under water explorers and fact finding about lots of the wonders of the deep.

We have lots of fun outdoor learning planned and will also be beginning to think about the next big steps as we get ready for year 1.

Take a look at our curriculum overview for more information and ways to support your child's learning at home.
